Bengaluru, India | [devsrijit260705@gmail.com](mailto:devsrijit260705@gmail.com) | +91-8088067470 | [linkedin.com/in/dev-srijit-7a8353295](https://linkedin.com/in/dev-srijit-7a8353295)  
[github.com/Devs7026](https://github.com/Devs7026)

## Professional Summary

---

Full-stack developer with a year of experience building scalable, user-centric web applications. Proficient in React, Node.js, Python, and Java; passionate about UI/UX and modern design. Experienced in leveraging AI tools for productivity and efficiency. Adept in both front-end and back-end development; quick to learn new technologies.

## Experience

---

**Cyber Security Intern (Remote)**, CISCO – Bengaluru May 2024 – July 2024

- Completed CISCO Virtual Internship Program focused on cybersecurity fundamentals.
- Analyzed and mitigated threats to data and systems; implemented prevention strategies.
- Monitored systems for vulnerabilities using Packet Tracer and reported incidents.

**AIML Intern (Remote)**, Elevate Labs – Bengaluru May 2025 – June 2025

- Developed and deployed machine learning models for time series forecasting and predictive analytics.
- Automated data collection and preprocessing pipelines using Python and Pandas, improving data reliability and workflow efficiency.
- Built, trained, and optimized LSTM neural networks using TensorFlow/Keras for stock price prediction.
- Built interactive Streamlit dashboards for real-time visualization and decision support.

**Front-end Developer Intern (Remote)**, Diggaj Coder – Bengaluru June 2025 – July 2025

- Worked on the front-end of major ongoing projects using React, TypeScript, and Tailwind CSS.
- Collaborated with other developers on GitHub, enhancing teamwork and communication skills.

## Projects

---

**Portfolio Website** 2024

- Developed a personal website using React and Node.js to showcase projects, skills, certifications, and blogs.

**Student Database Management System** 2024

- Created a Django-based platform for managing student records and analytics. Simple yet robust.

**Stock Price Prediction Model** 2025

- Developed and deployed LSTM-based models for stock price prediction.
- Automated data pipelines using Python, Pandas, and yfinance.
- Engineered technical indicators to enhance prediction performance.
- Built interactive Streamlit dashboards for real-time visualization and decision support.

**AI Healthcare App** 2025

- Developed an app for logging food data and analyzing symptom triggers to give safe recommendations.
- Built using Next.js, TypeScript, Tailwind CSS, and Django for the backend.

## Skills

---

**Programming Languages:** JavaScript, TypeScript, Python, Java, C/C++ , Kotlin

**Web Development:** React, Node.js, Express.js, HTML, CSS, Django, MERN

**Databases & Tools:** MySQL, MongoDB, Postgres, Matlab (AIML), Docker, Kubernetes

**Design:** Figma, Responsive Design

**Other:** Git, Agile, REST APIs, AI Tools, Postman/Insomnia

## Certifications

---

- 🌟 Meta Front-End Developer (Professional Certificate)
- 🌟 Meta Back-End Developer (Professional Certificate)

## Education

---

<b>B.Tech, Computer Science</b> , Manipal Institute of Technology – Bengaluru	2023 – Present
<b>PUC (+2), Science</b> , Chethana P.U College (Deeksha) – Bengaluru	2021 – 2023
<b>Schooling</b> , Presidency School Bangalore North – Bengaluru	2013 – 2021

## Achievements

---

- 🏆 Leetcode 50 days badge
- 🏆 Hackerrank 5 stars in Java (RANK < 50k Globally)

## Languages

---

English (Fluent), Hindi (Professional)

## Hobbies

---

Football, Cricket, Reading, Art, Networking
