PROFESSIONAL SUMMARY

I'm a full-stack developer with a year of experience, and I love bringing ideas to life through code. I built my own portfolio website from scratch using React and its libraries , which was a great way to challenge myself and showcase my skills. I'm always excited to learn new concepts and improve, whether it's front-end design or back-end logic. Problem-solving and creating smooth user experiences keep me motivated every day

SKILLS

- HTML & CSS   5/5
- MYSQL & SQL   5/5
